## [The Shingle Creek Regional Ponds Seed and Planting Improvement Phase Complete \(click title for map\)](#)

This week the Minneapolis Park and Recreation Board continued with its improvements at the Shingle Creek Regional Ponds at 52nd and Upton Ave N. The work continues through the rest of this summer and fall. This major retention ponds improvement project started in February by cleaning out the two holding ponds that help filter water from former Brookdale before returning into Shingle Creek, removing cattails and other brush from the shore, rejuvenating the paths and creating a new walking path asset onto the peninsula.

Turtles, Blue Herons, deer, eagles, and fox have all been seen enjoying this Shingle Creek and community asset. It's not like any in other pond in Minneapolis. Plan a picnic, or bike, walk, or drive by this 4th of July weekend

and see how this project is progressing and improving the community.
